In celebration of the 15th Anniversary of The Jockey Club School of Public Health and Primary Care (JCSPHPC) of The Chinese University of Hong Kong, an international conference on “Innovations in Public Health Sciences” will be held on 23-26 September 2016 at School of Public Health Building, Prince of Wales Hospital, Shatin, Hong Kong.

Programme

23 September 2016: Symposium on “Public Health in China” + Pre-Conference Workshops
24-25 September 2016: Main Conference + Poster and Oral Presentations
26 September 2016: Post-Conference Workshops

Facing the ever-changing challenges and rapidly evolving scientific landscape in public health, global scientists and policy-makers continue to search for creative ways and systematic approaches to safeguard the health and well-being of the public and to prepare for the challenges. The Conference provides an excellent platform for scholars, researchers, clinicians, educators, managers and policy makers in public health and primary care disciplines to share their innovative ideas and valuable experiences in implementations of their pioneering approaches.

We are honored to have renowned speakers worldwide joining our Conference and sharing their insights and expertise with us: Dr. Vivian LIN (Western Pacific Region, World Health Organization), Prof. Liming LI (Chinese Academy of Medical Sciences and Peking Union Medical College, China), Prof. Jane GUNN (University of Melbourne, Australia), Prof. Howard HU (University of Toronto, Canada), Prof. Stewart MERCER (University of Glasgow, United Kingdom), Prof. David OWENS (Cardiff University, United Kingdom), Prof. David MATCHAR (Duke University, United States), etc.

Topics of the Conference include (but are not limited to):

- System Sciences for Health
- Multi-morbidity and Complex Intervention
- Frontier Technologies with Impact in Public Health
- Emerging Environment Health
- Health Informatics and Big Data
- People- and Patient-Centred Health System
- Disaster Preparedness for Global Health
- Well-being in 21st Century
- Behavioural Science and Risk Behaviour
- Health Screening

We are now calling for abstracts related to the above topics. For those who are interested, please submit your abstracts to the Conference Secretariat by the deadline 10 June 2016. For details of abstract submission guideline and Conference updates, please visit the Conference website.

We look forward to your active participation and celebrating this important milestone together with our School.
